

MADGE LAKE BIBLE CAMP

CAPITAL PROJECTS FOR 2009...

FACING THE FUTURE TOGETHER!

The two main proposed projects for this year are

1) Electrical System upgrade to 600 amp service:

Why: Currently our electrical system is overloaded as we only have a 200 amp service. Including the dining hall, the chapel, the cabins, etc. we now have over 13 buildings all running on the 200 amp system, we need to upgrade. It is the vision of the board to be able to put heat in most of these buildings to extend the season that we can operate and have a greater impact on God's Kingdom but with the current situation this is not possible.

Total Cost: \$40,000+

Total In so far: \$7,500 (approx.)

Total needed to raise this year: \$7,000

Strategy: We are endeavoring to do this project as a three or four phase project as the cost is too high to be done all at once. Phase one of the project is to actually get the 600 amp service put in and to possibly extend that service partially to some of the cabins.

How you can be involved:

- a) **pray** that God supplies the funds we need.
- b) see if you could **donate** some of your time and/or money to help with this cause,
- c) **tell someone** you know who might be able to help and see if they want to get involved.

2) Staff Housing Cabin:

Why: In the past several years the camp has been expanding it's areas of ministries to include such things as: an LIT program, a horse program, and a LIT director. All of these additions have been excellent but, it means that we have a shortage in terms of our staff housing. As a result, we want to put up a new cabin to help alleviate this shortage. By putting up this cabin we would be "keeping up" with the increase of programs we have seen.

Total Cost: \$12,000

Total in so far: \$5,000

Total left to go: \$7,000

Strategy: We are planning on putting up the structure sometime this spring (as long as the funds come in) by simply buying the materials and trusting God that He will supply the necessary man-power to get the job done.

How you can be involved:

- a) **pray** that God supplies the funds we need.
- b) see if you could **donate** some of your time and/or money to help with this cause,
- c) **tell someone** you know who might be able to help and see if they want to get involved.

At Madge Lake Bible Camp we recognize that over the past 55 years we have been fortunate with the generosity of individuals who have come alongside the ministry to help it grow. We invite you to come alongside the ministry to help it continue to grow into the future.
